

Nature Observations - Privacy Policy

A. Introduction

The privacy of our users is important to us, and we want to protect it. This privacy policy explains, how we handle your private data.

B. Credits

This privacy policy was created using a template from vpnMentor (www.vpnMentor.com).

C. Storing and processing data

Data is processed and stored only on your device. It is not sent over Internet to be processed in other places. Thus, the developers of the app do not have any knowledge of the data stored by the application.

D. How we collect data

The app can collect the following types of data and ask for permissions to do that:

1. Pictures through the camera
2. Pictures from the file system
3. Sound through the microphone
4. Text inputted while creating and modifying observations
5. Location data from the GPS sensor
6. Location data selected from the map
7. Location data through the map search functionality
8. Any other kind of data that is required for the app to work

E. Information security

We take reasonable technical precautions to prevent the loss, alteration and misuse of your data.
